+
피부 결 케어
파파인 &
MIZOAN® ABPLHA-SOME

+
건강한 스킨 포뮬러
CeraPlex5

INGREDIENT

나이아신아마이드 · 아데노신

미백 및 주름개선 식약처 고시 인증성분으로
밝고 탄탄한 피부결 케어에 도움을 줍니다.

파파인 · MIZOAN® ABPLHA-SOME

파파야 유래 단백질 분해 효소 성분 파파인과
4가지(AHA, BHA, PHA, LHA) 필링 성분이
함유되어 피부 결 케어에 도움을 줍니다.

CeraPlex5

세라마이드 5종(NP, AP, AS, NS, EOP)으로
구성된 CeraPlex5가 함유되어 피부를 보호하고
수분을 공급하는 데 도움을 줍니다.

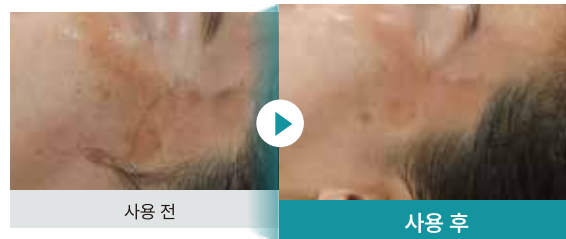

RECOMMENDATION

이런분들께 추천드려요

- ✓ 피부가 쉽게 건조해지고 컨디션이 자주 무너지는 분
- ✓ 피부 수분 · 진정 · 컨디션 케어를 한 번에 관리하고 싶은 분
- ✓ 피부 자극 없이 편안한 데일리 집중 케어를 원하는 분
- ✓ 피부 본연의 건강한 윤기와 탄탄함을 되찾고 싶은 분

HYAL 11(히알루론산 9종)

INGREDIENT

나이아신아마이드 · 아데노신

미백 및 주름개선 식약처 고시 인증성분으로 밝고 탄탄한 피부결 케어에 도움을 줍니다.

BIO Marine Summer™

피부 장벽 케어 특허 성분

ACTI-BARRIER™

피부 장벽 개선 임상시험 완료 원료

수분 레이어링

11가지로 이루어진 히알루론산 성분이 함유되어 피부에 수분을 공급하고 촉촉한 피부를 유지하는데 도움을 줍니다.

C³ FORMULA PEEL

The New Standard
in Medical Peeling.

Clear. Calm. Complete.

REWRITING THE STANDARDS OF EXFOLIATION

Moving beyond traditional irritation-centric procedures, C³ Formula Peel establishes a new paradigm: **Recovery-Centric Medical Peeling.**

CLEAR (Transparency)

Restores intrinsic skin transparency through a synergistic blend of AHA, BHA, and PHA chemical exfoliants.

CALM (Protection)

Actively protects the delicate skin barrier during exfoliation using Ceramides and Centella Asiatica Extract.

COMPLETE (Transformation)

Delivers a comprehensive clinic system designed for visible transformation without inducing chemical trauma.

BEYOND THE FACE: A TOTAL BODY SOLUTION

C³ Formula Peel is an advanced multi-formula that transcends standard facial treatments. It is precisely engineered to clear sebum and dead skin cells across diverse dermal textures in a single application.

FACE

Gentle yet effective exfoliation safe for delicate facial skin types.

SCALP

Purifies excess sebum and deeply embedded dead skin while delivering a refreshing cooling effect.

BODY

Smooths rough, uneven body textures instantly.

One multi-care solution. Total body programming.

MAXIMUM EFFICACY WITH MINIMUM FRICTION

Z-TECHNIC & SELF-NEUTRALIZING BUBBLE ENZYME

ZERO
NEUTRALIZER
REQUIRED

1. Bubble Enzyme Action: Upon brush application, the formula transforms into a micro-bubble lather, effectively dissolving impurities and dead skin without mechanical friction.

2. pH Auto-Balancing Formula: The stabilized formula regulates pH independently. The peeling process is completed simply with water cleansing.

Decreased Treatment Time + Minimized Irritation = Maximized Clinic Efficiency

CLEARER SKIN WITHOUT THE RECOVERY PERIOD

Traditional Medical Peeling (The Old Paradigm)

- **Mechanism:** Relies on epidermal destruction.
- **Patient Experience:** Severe shedding, flaking, redness, and chronic tightness.
- **Downtime:** Days of visible recovery required.

C³ Formula Peel (The New Standard)

- **Mechanism:** Softly melts only the outermost dead skin layer using **AHA + BHA + PHA + Complex Enzymes**.
- **Patient Experience:** Deeply purified stratum corneum with an intact, protected barrier.
- **Downtime:** Zero. Patients can seamlessly apply makeup the very next day.

ZERO TIGHTNESS. ZERO REDNESS. ZERO FLAKING.

PROVEN CLINICAL TRANSFORMATION

Evidence 1: Macroscopic Skin Improvement

Visible post-procedure reduction in erythema (redness) alongside immediate restoration of surface transparency.

Evidence 2: Instrumental Hydration Analysis

Clinical instrumentation demonstrates a massive surge in intrinsic moisture levels immediately following the peel.

KEY CLINICAL INSIGHT

Unlike traditional chemical exfoliants that strip the lipid barrier, the synergy of C³'s acids and ceramides leaves the dermal layer deeply hydrated and structurally sound.

THE COMPLETE C³ CLINICAL PROTOCOL

Peeling is only half the science. Protecting and fortifying the newly revealed skin is where true transformation is sustained.

STEP 1: Intensive Soothing Care
(Hydra Serum)

STEP 2: Barrier Strengthening &
Moisture Lock
(Moisture Lock Cream)

STEP 1: INTENSIVE SOOTHING CARE

C³ Hydra Serum

Powered by 5 Types of Centella Asiatica & Madecassoside.

Pillar 1: Post-Peel Calming

Rapidly soothes sensitized, post-procedure skin while fortifying the protective barrier with high-grade Panthenol.

Pillar 2: High-Density Texture

Formulated as a viscous, moisture-rich serum that adheres deeply to the dermal layers, delivering profound hydration and a highly elastic finish.

Pillar 3: Hydra Barrier Formation

Utilizes Edelweiss and plant callus extracts to form a robust, high-moisture shield, preventing trans-epidermal water loss and reviving intrinsic cellular vitality.

STEP 2: MOISTURE LOCKING SYSTEM

C³ Moisture Lock Cream

Formulated with Squalane, Olive Oil, and Lactobacillus Ferment.

Pillar 1: Optimal Oil/Water Balance

Squalane and Olive Oil deliver rich, skin-friendly nourishment, creating the perfect physiological balance without feeling excessively heavy or greasy.

Pillar 2: Moisture Lock System

An advanced 8-layer Hyaluronic Acid and Beta-Glucan complex creates a robust, impenetrable moisture net that traps hydration tightly for all-day comfort.

Pillar 3: Barrier & Elasticity Care

Lactobacillus Ferment and Panthenol actively defend against external irritants, creating a smooth, velvety finish that serves as a flawless canvas for makeup application.
